

FairCo

International Ltd.

November 8th 2011

Reference : **Marten Heetebrij**

To whom it may concern,

FairCo International Limited is a yacht fairing and painting company, we have known and worked with Marten Heetebrij since his days as director of Klaver Yacht Painting, over 20 years ago!

Marten's role as the independent paint surveyor has been a valued and vital part of many successful new build constructions we have been involved with.

The most important thing to be said is, Marten's wealth of 'hands on' experience in the yacht industry sets him far ahead of other inspectors who have tried to learn only from technical manuals. His understanding of the differing products on the market, shipyard conditions, and time frames makes his comments and assistance during his on-site visits beneficial to the Shipyard, Owner and applicator.

He is always available to answer any of our queries. We have and would continue to strongly recommend Marten Heetebrij as the paint surveyor for any project.

Yours sincerely,

AJ Dando
Director of Operations
