

# **KARMA**

## **YAT TEKNİK**

I worked with Mypai for the complete repaint of a 40 mt Motoryacht.

All my concerns about the management of the project, where the Owner, Owner Rep & the Captain were very much involved beside the shipyard, resolved after Mypai's authorization.

I appreciate their reasonable, honest and quality focused approach which let the work process flow and end with a remarkable finish.

It was a pleasure for me to work with Mypai, they have a lead role in the success of the project and I recommend their services to all parties involved a yacht painting project.
